### FINANCIAL AND COMMERCIAL.

MONDAY, Nov. 12-6 P. M. the stock market was strong at the commencement of business this morning, and at the early session of the open board prices were generally 3/4 a 3/4 higher than at half-past five on Saturday. Erie sold at 83, Michigan Southern at 91%, Northwestern at 84%, and ditte preferred at 78%—these being the most active of the rail-way shares. After the call, however, the raid of last way shares. After the call, however, the half of has week was resumed, and prices declined rapidly, the bull combination, meanwhile, assisting the decline, in order to draw out "shorts" the more freely. In the lower half of the Stock Exchange Krie touched 81%. Michigan Southern 90, Northwestern 52%, and the pre-ferred stock 77%. These were the weakest and mosgorously hammered by the bears. At the first regular ard the stocks mentioned were selected for attack, d the rest of the market, Reading excepted, empathized. The statement of the associated banks for without good reason. The legal tender notes have been reduced \$3,478,347, while the loans have been increased \$3,907,853, both being partly due to the conversion of compound interest notes into the new issue of five-twen-ties of 1865, as the banks invariably deduct the notes thus converted from the total amount of their egal tenders, and add the amount of the bonds received in exchange to their loans. The secret manner in which these conversions take place is objectionable, as it opens the door to fa-voritism and shuts out the public in general from a privilege by which a few secure profit. Another cause which has operated to bring about this result may be described thus:—Certain brokers, anxious to induce a decline in stocks and make the bank statement appear went to several of the city banks and borrowed currency on securities, which currency they imafterwards placed to boxes and bags, and sed as collateral security for loans at other banks, with ocking their notes up in the presence of the respective nd influenced the bank statement proportionately Yet money to-day has been offered largely in excess of at four per cent on governments, the exceptional trans tive houses desirous of having their loans undisturbed reflects the really easy condition of the market; also an increase in the circulation of \$502,733, and in the specie of \$3,958,768. As the latter is counted as legal tender is follows that, although there is a loss of \$3,478,347 legal tender notes, the increase in specie re than offsets it, and therefore the actual legal tender reserve shows an increase. The banks generally sen greater than the return flow from the interior, and from this source. The details of the present and previ-

Reverting to the Stock Exchange, the extent of the decline at and prior to the first regular board will be seen by the following:—
New York Central closed 1½ lower than at the same time on Saturday, Eric 3, Reading ¾, Michigan Southern 1½, Illinois Central ½, Cleveland and Pitteburg ¾, Cleveland and Toledo 1¾, Rock Island ¾, Northwestern 3½—preferred 1½, Fort Wayne ¾, Ohio and Missiasippi certificates ¾, Pacific Mail 1, Canton 2½, Western Union Telegraph ¼. Atlantic Mail was ¼ higher. Evernment securities were heavy and dull. Coupon five twenties of 1864 showed a decline of ¾, issue of 1865 ¾, ten-forties ¼, seven-thirty notes of the first series ¼. At the one o'clock sessions the market was firmer. Eric sold at 82½ a 81½, Northwestern 63½ a ¾—ditto preferred 77½ a 78¾. At the halfpast two board prices weakoned on the call he compared with the first regular board Eric closed ¾ higher. Illinois Central ¼, Northwestern preferred ¾, Fort Wayne ¾. Reading was ¼ lower, Reverting to the Stock Exchange, the extent Eric closed & higher, Illinois Contral 14, Northwestern preferred %, Fort Wayne %. Reading was & lower, Rock Island %. Northwestern 134, Atlantic Mail %, Quicksilver %, Western Union Telegraph %. Government securities were neglected, but steady in tone. After the call prices experienced a further decline, and at the three c'elock open board New York Central sold at 116 a %, Eric 21 a 50%, Michigan Central 113%, Michigan Bouthers 85% a 86%, Illinois Central 125%, Clevelland and Pitchelpus 85% a 86%, Illinois Central 125%, Clevelland and Pitchelpus 85% a 86%.

tions. The opening price was 144, followed by an advance to 144½ and a relapse to 143½. Subsequently it rose gradually to 144½, the closing price in the room, and afterwards on the street there were transactions at 144½. There was an active borrowing demand for gold, owing to the large "short" interest which has been recently created, and loans were made at as high a rate as 1-16 per cent per dasm in favor of the lender; but after delivery hours they were made either "fat" or by paying 8 a 4 per cent ffor carrying. It is semi-officially announced that the government has no intention of selling gold, and we mention this because some of the bears circulated a rumer to the contrary effect during the morning. After the experience of last May Mr. McCullech would hardly be experience of last May Mr. McCulloch would hardly be suicidal enough to repeat the blunder. Gold has now touched a point when it is likely to raily.

The foreign exchange market was dull. Benkers' bills on Engiand at sixty days were quoted at the close at 100 a 100%; at three days, 100% a 110; commercial bitle, 108 a 108%; france at sixty days, 5.17% a 5.18; at three days, 5.12% a 5.13%; bills on Berlin, 71% a 72%; on Bremen, 78% a 70%; on Frankfort, 41% a 41%; on Amsterdam, 40% a 41%; on Hamburg, 36% a 36%; on Antwerp, 5.18% a 5.16.

Mining stocks continue weak, the Downieville transaction having shaken confidence in them. At the first board La Crosse Gold closed Sốc. lower than at the same time on Saturday, selling at \$1 25; Ophir So., selling at \$6 (b 30). At the second board Corydon sold at \$8 45, Nye Gold \$19, Ophir \$6 (b. 30).

### CITY POLITICS.

The Late County Contest—Interesting Compa-rative Statistics—The Registership and the Popular Voice The Real Strength of Tam-many in the Late Contest—"Boss" Fernando and the Chiefs of the Wigwam—The Charter Election, &c.. The results of the late contest as regards the city have

the regular of the life contest as regards the city been surprising to an extent never heretofore witnessed in local politics. The democratic Union party polled for three of its candidates.—Sedgwick, Smith and Halpine, seventeen thousand votes for each. Halpine, it is true, ran fifteen thousand democratic votes ahead of these figures; but this increase cannot fairly be claimed for the party which had placed him on its ticket. In the Twenty-first ward, for example, under the able leader-ship of William C. Barrett, United States District Attorney Samuel G. Courtney, Alderman O'Brico and others, the independent rank and file of Tammany Hall spurned the bargain made between the Tammany chiefs and "Boss" Fernando, and supported "Miles O'Reilly" as if he had been the regular Tammany candidate.

THE CONBINATIONS AGAINST TANMANT. In the Thirteenth word, Deputy Sheriff Thomas Henry Ferris and his friends did likewise on the Tammany ide, while in the Eleventh ward Owen Keenan, and in the Seventeenth ward Mr. James Kelly, heretofore practical supporters of the Mozart chief, cast off their al-legiance to that decaying institution, and threw themselves with all their energies for the candidate whom they believed to be an independent popular choice.

THE STRENGTH OF THE DEMOCRATIC UNION.

But the great fact remains that for three and four can didates on its county ticket, the Democratic Union and "Anti-Ring" Democracy polled seventeen thousand votes for each candidate, and this notwithstanding the popular whiriwind and tornado against the Excise Law and the Registry Law of last winter, which the Tammany chiefs rallied upon to drag behind the whole vote cast for the Albany State ticket.

TER PROPLE THINKING FOR THEM-SELVES.

That the people of the city of New York have comnenced to think for themselves is the great lesson of the late election, and that they will no longer support with their votes nominations in making which they are allowed no voice, but which are made by three or four democratic officeholders sitting down with "Boss" Fer-nando in a back parior of the Astor House, is one thing

THE RISG TERROR-STRICKEN.

That this sudden exhibition of the strength and power of the anti-'ring' Cooper Institute democracy has already had its full effect of striking terror, into the Tammany "ring," is sufficiently evidenced by the card in which Comptroller Brennan has withdrawn his name from consideration as a candidate for re-election in the charter contest.

Comptroller Brennan has withdrawn his name from consideration as a candidate for re-election in the charter contest.

It was especially to compass the re-election of Mr. Brennan in December that all the nominations of Tammany Hall were sold out in the November contest. Messre. Tucker, Hackett and McCool being of the Mozart faith, and the special bargain being that if Tammany would re-elect Mr. McCool in November, "Hose" Fernando and the few men that still cling to his fortunes would do their utmost to re-elect Comptroller Brennan next month.

The Tammany bargain failing on McCool, the Mozart organ, edited by "Ben 4, Il and 44." is now savage every norming in denouncing Tammany's treachery and insisting that the 'Ring' secretly supported General Halpine for Register. To this a sufficient answer may be found in the fact that in every ward of the city dominated by the 'Ring' Halpine went to the wall, as heavily as Tammany votes could put him there. In the First ward, for example, which is controlled by Supervisor and now Congressman elect John Fox, Police Justice Hogan and Alderman Moore, Halpine only received 530 votes to 1685 polled for the Tammany candidate. In the Forth ward, dominated by the financial epartment, he is also beaten by a small majority; and in the Sixth ward, which is specially under the orders of Comptroller Brennan, there is a majority against him of 1,446 votes. So also in such strong democratic wards, heretofree bindly subservient to the Tammany 'ring,' as the Eleventh, Seventeenth and Twenty-second, everything was done to beat him which bribery, treachery and threats of punishment could effect.

THE STORY OF THE AMERICAN AND HE EFFETT.

While success was deen not to any want of bostility on the part of the regular machine, but because the great majority of our independant people belonging to all parties, and who were utterly sele of machine control, were resolved in his (Halpine's) person to ester a protest against its further continuance. He was also largely indebted to the unswerving supp

public affairs.

THE CHARTER RESCHOR.

There is a very decided popular sentiment expressed in regard to the nominations for charter efficare to be elected next month, that promises to develop itself in works, and the demand made and enforced, that the places about to become vecant in the Common Council shall be supplied by men of known probity, character and shirty, who are identified in neutiment and interesses with the constituencies they represent, and also the general weifare of the city. The aspirate for Aldermanty and Council manie honors are numerous, but of the many and Council manie honors are numerous, but of the many

The Anarrow.—At the last meeting of the directors it was resolved to give the free use of the shaighter house to all butchers and drovers whose cattle may have been onged in the stock yards. The directors desire it to be especially understood that the slaughter house is merely an adjunct for the free accommodation of cattle dealers who resort to the yards. To all others the fee for slaughtering on the premises as so small as to be insufficient to cover the expenses of labor. So far as the slaughtering is concerned it is only a secondary business, and all facilities will be given to outsiders for the advantage of the public.

A Committoo to Wait Upon the Senate Committee mittee To-Day, &c.c.

A meeting composed of a large number of ship and wharf owners was held yearled age to the committee of the Kaickerbocker Ice Company, in Canal street, in accordance with a call which had been circuisted among the representatives of those interests for the purpose of making such representatives of those interests for the purpose of making such representatives of those interests for the purpose of inquiring into the condition of the piers, whereas, beth-heats and slips in the cities of New York and Brookty, and as to their ownership. rates of wharfing charged for might seem relevant to the matter, to report at the agent may be made and the last senion of the Lagitatiure, and is composed of Meerr. Plence, Low, Gibbon, La Bao. Sanford and Marphy. The meeting was called to order, and Mr. Stransham of livedityn, appointed Chairman, and Mr. Loanes and Stransham of incolarly, appointed Chairman, and Mr. Loanes and the second of the committee is entensive etopony to whether it estimates of the college of the

accommodations. There were so miny interests at work that they thought that if they ever went to the Legislature again is would be simply with their own wherf interests, leaving everything else to care for itself. Now if this movement on the part of the Chizen's Association Committee should acrouse our citizens to a point where general legislation can be made available they should join that ands each to get general legislation. If they could not do this then the interest in wharfage must ask for a moderate increase of wharfage. Those who want the exclusive use of wharfage. They should not confine themseives to any particular view of the question until it has developed itself more fully.

Mr. Leonan strength that the committee should be made acquainted with the pier accommodations provided by the wharves of New York, and if they went to work right in the matter they could make the foommittee understand what was needed and how far this thing might be brought about. There were many echances. Some were for iron piers and granute builkheads and one channel around the city, &e., and so many views were entertained that nothing really was accomplished.

After some further discussion it was moved and carried that a committee of five be appointed by the Chair to take charge of the whole matter, with power to add to their number.

The Claus appointed Mesura Raymond, Leonard, Murray, Smith and Horton as members of the committee, after which it was voted that Mr. Stronahan act as its chairman.

It was then suggested that as many of those present to take charge of the whole matter, when his power to add to their number.

MIAL RALROAD CASUALTIES.

Inqueries on the Roly of Robert Parker-A accommendation by the Coroner's Jury.
Coroner Wildey held an inquest at 261 West Iwenty-sixth street, on the body of Robert Parker, man thirty-one years of age, who diet from the effects of injuries received by being run over by one of the cars of the Sixth Avenue Railroad Company, on Monday evening the 5th instant. It appears hat deceased had been down town to his work, and on sturning home attempted to jump on the front platform of car 2 of the Sixth avenue line, while it was in motion. Indoing so, Parker slipped and fell with one leg befor the wheel, which passed over and crushed it in a terbile manner. It was quite impossible for the driver to facek he speed of the car in time to prevent the casury.

Such are the principal face in the case.

Mr. Joseph B. Ridgood, superintendent of the Sixth Avenue Railroad Company, was called as a witness and testified that there were negates or chains to prevent persons from getting on or 8 the platforms of cars; that the company used them for some time and found them detrimental to the safety of passengers. The Superintendent thinks the galeac creed more accidents than the absence of them, as the possipers would jump over the gates, thus disregarding U printed requinitions posted up in all the cars. The on being submitted to the jury a verdict as follows was referred.

That the deceased came his death by injuries accidentally received from big run over by car No. 42, of the Stith Avenue Railro line, on the 5th day of No. vember, 1806, while sweeting to get on the from platform of the car. We returned all city railroad conference to the car.

The Third Avenue Case.

The Third Avenue Case.

John O'Donnell, the man who was rin over by car No.

47 of the Third avenue line, near Twenty-seventh
street, on Sunday evening, as reported in Yesterday's
HERALD, died in two or three hours subsequently in
Bellevue Hospital, whither he had been conveyed. Deceased, who is said to have been partially intoxicated, in
attempting to get off the from plaiform of the car,
slipped and fell, when one of the wheels passed over
his left leg, crushing it so that amputation was found to
be necessary. After reaching the hospital, O'Donnell
concerned the car driver from blame. Coroner Gover
was notlined to hold an inquest over the remains, and
will do so to-day.

### WESTCHESTER INTELLIGENCE.

A Yound Mormest.—Sarah Brown, a girl of fourteen years old, while on her way in the cars from Hartford to

years old, while on her way in the cars from Hartford to the city of New York yesterday, on reaching Mott Haven was taken suddenly ill, and in a few hours gave birth to a fine fat bouncing boy. The girl has, until within a few days, been living as a domestic in the family of John Herring, at Hartford. Her parents live in Kenkico. Mr. York, overseer of the poor of Morricania, took charge of the young mother and her child.

SUPERVISORS MEETING.—Yesterday morning the Board of Supervisors of Westchester county met at the Court House in White Plains and organized by the appointment of William Caldwell, Supervisor from Morricania, as President of the Board, and J. Malcomb Emith, as President of the Board, and J. Malcomb Emith, of Ossining, as clerk. The Board will meet to-day as county canvassers, and canvass the returns of the late election. On Wednesday they will resume their session as a Board of Supervisors.

Report of the Roan of Excess Commissioners.—The Board of Excise Commissioners of this county have

Board of Excise Commissioners of this county have made up their annual report, from which it appears that there have been granted three hundred and twenty liceses during the past year, of which two hundred and five were noted and one one hundred and fifteen grocers' licenses.

For the Poor is West Farms.—The sum of \$1,000

was appropriated by the Board of Town Officers of the town of West Farms, at their meeting on last Saturday night, for the support of the town poor for the coming year.

## THE NATIONAL GAME.

Artists of New York vs. The Wood En-These two representative bodies had a "muffin" match at base ball at the Red House, yesterday. They distinguished each other by the artists calling themselves the "Dyspeptics" while the others called themselves the

"Dyspeptics" while the others called themselves the "Rheumatics." The play commenced about cloven o'clock and lasted until five. At the start the "Dvspeptics" got short winded, and in getting around the four bases found themselves unable to trace a line. The "iftheumatics," who are used to "routing," completely routed their adversaries, and on the first innings were 22 to the Artists 11. On the second innings the Artists became more steady, and somewhat blocked their game. Mr. Bellew, the caricaturist, showed well as a "battist," and ran like an old stager. Mellen, of grotesque proclivities, was spiendid on the fly catch, and showed evident symptoms of some time becoming a player. Gulick was the pitcher on the artists side, and the way be poured in the balls right and left showed that his handle was not on one side. The engravers, however, were too much for them, and won the match by 41 to 23. If the senson remains open there is talk of a return match, which will no doubt be relished by not only artists and engravers, but the kieraliti of the city. There were large numbers of artists and newspaper men generally present.
